

Cabin Craftworks is offering customizable cake and cupcake toppers! What makes your delicious creations even more exciting than a custom keepsake for your clients?

These are made right here in Fredericksburg, Virginia by a woman owned small business! Since we own and operate a CNC Kern Laser, we can offer these custom products to your company at competitive prices.

Some examples of toppers we have made are: monograms, anniversary, birthday, Mr. & Mrs., and single letters.

We offer the toppers in both ¼" thick wood as well as acrylic plastic. The toppers are approximately 3" wide by 3" tall (not including support) and cake toppers are approximately 5 ½" wide by 4 ½" tall (not including support). We are happy to discuss custom designs and sizes! Natural wood and acrylic products lend themselves to use as is, or are easy decoration for that custom look.

Whole prices and quantity available! Give us a call or send us an email today to discuss what we can do to add even more personalization to your business!
